ADGo5 FDH, FDH+ & FDH 20

Casing holder device FDH for natural casings

*As additional equipment for FREY-vacuum filling machines
A fantastically simple-to-handle casing-holder-device is available.
The FDH especially has been developed for natural casings. By help of our
casing-holde-devices you will always receive tight and filled-up products at
highest working-speed. There is no need for spcial trained personel.
The casing-holder-device is easy to atttach and can easily be detached from
the linking-gear. The casing-strain is infinitely adjustable.*

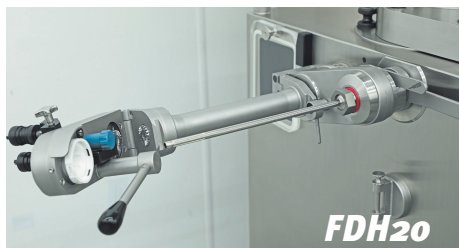

New Generation

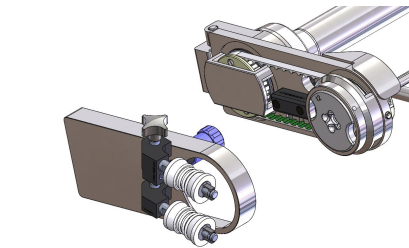

- for vacuum fillers equipped with ADGo5
- for processing natural casings
- upgradable for artificial-, cellulose- and collagen-casings
- swiftable and detachable
- without drive
- low maintenance

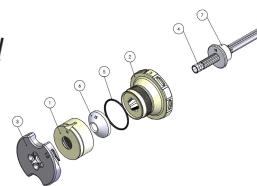

- for all types of casings upto cal. 42 mm
- suitable for the automatic filling of artificial-, cellulose- and Collagen-casings as well as natural casings
- for all vacuum-fillers to ADGo5
- casing-caliber depending on filling-tube from 13-43 mm
- swiftable and detachable
- drive over holding-tube
- very quick for cocktail-sausages

- casing holder device for all types of casings FDH20
- driven casing-holder-device with collar-technic
- swiftable
- detachable
- with foldable splash.guard
- especially made for big calibers (upto 60 mm)
- drive by own toothed-belt-drive
- detachable without use of tools

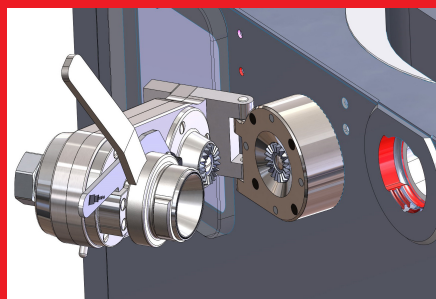

- special linking-tube for FDH+
- with lip, brake-ring, driver and star
- available sizes: 9, 10, 11, 12, 13, 14, 16, 18, 20, 22, 24, 28mm

- special linking-tube for FDH20
- with driver, threaded-ring, collar and star
- available sizes: 9, 10, 12, 14, 16, 18, 20, 24, 28 mm

ADGo5

- Swiftable
- Detachable
- Complete V2A construction
- High lifetime
- service-friendly
